EDUCATION

B.Tech in Computer Science and Engineering

ABES Institute of Technology (ABESIT),
Ghaziabad

08/2021 - 07/2025

Intermediate (Science Stream)

GBSS School, New Delhi

04/2020 - 07/2021

WORK EXPERIENCE

Full Stack Developer Intern

Digicode Software Pvt. Ltd., Noida

05/2025 - Present

Achievements/Tasks

- Developed and maintained interactive UI components using React.js, improving usability and responsiveness.
- Integrated frontend with backend services using **RESTful APIs** and handled application logic effectively.
- Debugged and fixed application issues, contributing to improved system stability and performance.
- Assisted in understanding and implementing **client requirements**, delivering features aligned with business needs.
- Worked with **SQL databases**, writing and optimizing queries to ensure efficient data storage and retrieval.
- Deployed applications to **client systems** and provided ongoing support, bug fixes, and minor enhancements.

Java Web Development Intern

Abesit, Ghaziabad

07/2024 - 08/2024

Achievements/Tasks

- Completed comprehensive training in Java Web Technologies, focusing on building dynamic applications using JSP and Servlets
- Implemented session management and integrated with MySQL databases
- Strengthened debugging, optimization, and application security skills through hands-on projects
- Gained real-world experience in full-stack Java development as part of intensive training

PROJECTS

DigiPay – Payroll Management System

Tech Stack :- React Js, Tailwind CSS, RESTful APIs

Features :- Employee Salary Management || Deductions & Allowances || Attendance & Leave Integration || Payslip Generation || Payroll Approval Workflow

Description :- DigiPay is a payroll management system designed to automate employee salary processing and streamline HR operations. It manages all key components of payroll including salary structure, deductions, allowances, and tax calculations

Future Scope :- In future updates, DigiPay can be expanded into a complete HR and compliance management platform, integrating modules like employee onboarding, ESI/PF management, and financial reporting dashboards for improved transparency and automation.one of the major software

Academic Performance Tracker

Tech Stack :- JSP, Java, MySQL, HTML, CSS, JavaScript

Features :- Student Result Management || Role-Based Access Control || Secure Data Storage || Automated Result Publishing || Academic Performance Tracking

Description :- Academic Performance Tracker is a web-based result management system designed to automate and simplify the process of publishing and managing academic results. It efficiently handles student records, subject-wise marks, and result calculations while ensuring secure access for administrators, faculty, and students

Future Scope :- In future updates, the system can be enhanced with features such as student attendance tracking, performance analytics dashboards, parent access modules, and integration with learning management systems for improved academic monitoring and insights

TECHNICAL SKILLS

Programming Languages

Java, JavaScript, C

Web Technologies

HTML, CSS, Tailwind CSS, React.js, JSP, Servlets
Spring, Spring Boot, Spring MVC

Tools & Frameworks

Git, Github, Xampp, Framer Motion, Hibernate,

Database

MySQL

Soft Skills

Communication, Problem Solving, Teamwork, Learning Agility

CERTIFICATES

Java Full Stack Development (DUCAT)

Web Development with JSP, Servlet, and MySQL (ABESIT)
