

RATNESH SINGH

Software Engineer | Spring Boot Microservices & Core Java | React.js

+91 87439 95866 | ratnesh.singh1340@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#) | Sector-53, Noida, India

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience designing and implementing scalable applications using Spring Boot Microservices and Core Java, including backend systems for payroll operations. Skilled in building RESTful APIs, role-based access control, and event-driven architecture with Apache Kafka. Comfortable collaborating with cross-functional teams, participating in code reviews, and following Agile/Scrum, SDLC, and STLC processes to deliver high-quality, production-grade software.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer | Campaigning Source Pvt. Ltd.

May 2025 – Present

- Developed backend services for MyCRM, a full-featured CRM platform, using Core Java and Spring Boot with Spring Security JWT authentication and role-based access control for Admin, Manager, and Agent users, aligning with scalable microservices design principles.
- Contributed to a Payroll Management System using Java and Spring Boot, developing salary processing, deduction calculation, and HR operations features.
- Built and maintained the React.js frontend for a production enterprise system, including an Inventory Management module with stock tracking and product management, using reusable components (React Hooks, Tailwind CSS).
- Integrated REST APIs for real-time data synchronization between frontend and backend services, supporting seamless application performance.

Full Stack Web Developer Intern | Campaigning Source Pvt. Ltd.

Nov 2024 – Apr 2025

- Built a fully responsive website using React.js and Tailwind CSS with reusable components, ensuring consistent UI across mobile, tablet, and desktop.
- Converted to full-time Full Stack Web Developer based on performance.

Java Web Development Intern | ABES Institute of Technology

Jul 2024 – Aug 2024

- Completed intensive training in Core Java Web Technologies, building dynamic applications with JSP and Servlets, session management, and MySQL database integration.
- Strengthened application performance, debugging, and security practices through hands-on full-stack Java development projects.

FEATURED PROJECTS

MyCRM – Full CRM Platform | Tech: Core Java, Spring Boot, Spring Security, MySQL, JDBC

Jan 2026 – Present

- Architected and developed the backend of a scalable CRM platform using Core Java and Spring Boot, following layered architecture (Controller, Service, Repository) to support maintainable, service-oriented design.
- Designed and exposed RESTful APIs with JWT-based authentication and Spring Security RBAC, enforcing role-specific access for Admin, Manager, and Agent users.
- Engineered core CRM modules (Lead, Contact, Deal, Task, Email) using JDBC with an optimized MySQL schema — normalized tables, stored procedures, and indexed queries for high-volume data.
- Implemented global exception handling and input validation across all API endpoints, improving API reliability by 35% and reducing runtime errors.
- Wrote unit and integration tests using JUnit and Mockito, achieving 80% code coverage and ensuring regression-free deployments across sprints.

Payroll Management System | Tech: React.js, Java, Spring Boot, MySQL

- Built a full-stack payroll and finance operations platform, developing backend APIs for salary calculation, deductions, and payslip generation.
- Designed a normalized MySQL schema for employee records and payroll structure, and built a responsive React.js frontend with full CRUD integration to backend APIs.

TECHNICAL SKILLS

Languages: Core Java, JavaScript, C

Backend: Spring Boot, Spring MVC, Spring Security, Microservices, Hibernate, JDBC, REST APIs, Apache Kafka

Frontend: React.js, HTML, CSS, Tailwind CSS, JSP, Servlets, Framer Motion

Databases: MySQL, Redis

Tools & DevOps: Git, GitHub, Docker, GitHub Actions (CI/CD), XAMPP, Postman, VS Code

Methodologies: Agile/Scrum, SDLC, STLC, Code Reviews

Certifications: Java Full Stack Development (DUCAT), Web Development with JSP, Servlet, and MySQL

EDUCATION

Bachelor of Technology in Computer Science and Engineering

ABES Institute of Technology (ABESIT), Ghaziabad | August 2021 – July 2025
