

RATNESH SINGH

Full Stack Web Developer | React.js & Java/Spring Boot

+91 87439 95866 | ratnesh.singh1340@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#) | Sector-53, Noida, India

PROFESSIONAL SUMMARY

Full Stack Web Developer skilled in React.js, Java, and Spring Boot, with experience delivering production-grade ERP modules, payroll systems, and REST APIs. Experienced in Agile/Scrum methodologies, SDLC and STLC processes, and event-driven architecture using Apache Kafka. Strong foundation in MySQL database design, role-based access control, and responsive UI development.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer — Campaigning Source Pvt. Ltd.

Noida, Uttar Pradesh

May 2025 – Present

- Developed and maintained React.js frontend for a production ERP system, including Inventory Management module with stock tracking and product management features.
- Built reusable, responsive UI components using React Hooks and Tailwind CSS for a scalable frontend codebase.
- Integrated REST APIs for real-time data updates between frontend and backend services.
- Worked on Payroll Management System using Java and Spring Boot, contributing to salary processing and HR operation features.

Full Stack Web Developer Intern — Campaigning Source Pvt. Ltd.

Noida, Uttar Pradesh

Nov 2024 – April 2025

- Built a fully responsive website using React.js and Tailwind CSS, ensuring seamless UI across mobile, tablet, and desktop screen sizes.
- Developed reusable React components with responsive layouts using Tailwind's utility classes.
- Converted to full-time role based on performance.

Java Web Development Intern — ABES Institute of Technology

Ghaziabad, Uttar Pradesh

July 2024 – August 2024

- Completed intensive training in Java Web Technologies, building dynamic applications using JSP and Servlets with session management and MySQL database integration.
- Strengthened skills in debugging, performance optimization, and application security through hands-on full-stack Java development projects.

FEATURED PROJECTS

Enterprise Resource Planning System (Inventory Module) | Tech: React.js, REST APIs

- Engineered a responsive, user-friendly UI for the Inventory module with features for stock tracking, product management, and real-time inventory visualization.
- Designed reusable and modular React components to improve scalability, and consumed REST APIs for live data display and updates.

Payroll Management System | Tech: React.js, Java, Spring Boot, MySQL

- Built a full-stack payroll platform for salary processing and HR operations, including backend APIs for salary calculation, deductions, and payslip generation.
- Designed a normalized MySQL database schema for employee records and payroll structure, and developed a responsive React.js frontend integrated with backend APIs via full CRUD operations.

TECHNICAL SKILLS

Languages: Java, JavaScript, C

Frontend: React.js, HTML, CSS, Tailwind CSS, JSP, Servlets, Framer Motion

Backend: Java, Spring Boot, Spring MVC, Hibernate, REST APIs, Microservices, Apache Kafka

Databases: MySQL, Redis

Tools & DevOps: Git, GitHub, Docker, GitHub Actions (CI/CD Pipeline), XAMPP, Postman, VS Code

Methodologies: Agile/Scrum, SDLC, STLC

Certifications: Java Full Stack Development (DUCAT), Web Development with JSP, Servlet, and MySQL

EDUCATION

Bachelor of Technology in Computer Science and Engineering

ABES Institute of Technology (ABESIT), Ghaziabad

August 2021 – July 2025
