EDUCATION

B.Tech in Computer Science and Engineering ABES Institute of Technology (ABESIT), Ghaziabad

08/2021 - 07/2025

Intermediate (Science Stream) GBSS School, New Delhi

04/2020 - 07/2021

WORK EXPERIENCE

Full Stack Web Developer Campaigning Source Pvt. Ltd., Noida

05/2025 - Present

Achievements/Tasks

- Developed and maintained **React.js frontend** for ERP system, focusing on the **Inventory Management module**.
- Built responsive UI for **stock tracking, product management, and inventory workflows**.
- Integrated and consumed **REST APIs** for real-time data updates and seamless user experience
- Designed **reusable components** and managed state using React Hooks (useState, useEffect).
- Contributed to **migration of Payroll System from .NET to Java (Spring Boot)** by understanding existing logic and supporting frontend alignment.

Java Web Development Intern Abesit, Ghaziabad

07/2024 - 08/2024

Achievements/Tasks

- Completed comprehensive training in Java Web Technologies, focusing on building dynamic applications using JSP and Servlets
- Implemented session management and integrated with MySQL databases
- Strengthened debugging, optimization, and application security skills through hands-on projects
- Gained real-world experience in full-stack Java development as part of intensive training

CERTIFICATES

Java Full Stack Development (DUCAT)

Web Development with JSP, Servlet, and MySQL

PROJECTS

Enterprise Resource Planning System (Inventory Module)

Tech Stack: React.js, REST APIs

Developed responsive and user-friendly UI for the Inventory module using **React.js**

Built features for **stock tracking, product management, and inventory visualization**

Consumed and integrated **REST APIs** for real-time data display and updates

Designed **reusable and modular components** to improve scalability and maintainability

Payroll Management System

Tech Stack: React.js, Java, Spring Boot, MySQL

Developed full-stack payroll system for salary processing and HR operations

Built backend APIs for salary calculation, deductions, and payslip generation

Designed database for employee records and payroll structure

Developed responsive frontend using React.js and Tailwind CSS

Integrated frontend with backend APIs and implemented CRUD operations

Academic Performance Tracker

Tech Stack :- JSP, Java, MySQL, HTML, CSS, JavaScript

Developed a **web-based academic result management system** to automate result publishing and record management

Implemented **role-based access control** for administrators, faculty, and students to ensure secure data access

Designed and integrated a **MySQL database** to store student records, subject-wise marks, and results efficiently

Built dynamic pages using **JSP** to manage backend connectivity and smooth data flow between application layers

TECHNICAL SKILLS

Programming Languages

Java, JavaScript, C

Web Technologies

HTML, CSS, Tailwind CSS, React.js, JSP, Servlets
Spring, Spring Boot, Spring MVC

Tools & Frameworks

Git, Github, Xampp, Framer Motion, Hibernate,

Database

MySQL

Soft Skills

Communication, Problem Solving, Teamwork
